Primed FJ Pine

Porta's Primed Finger Jointed (FJ) is a time and cost-effective solution when a real timber substrate that is ready to paint is needed.

- Knot-free pine
- Pre-primed
- Finger Jointed
- FSC Certified

Suitable for wet areas

Available at
BUNNINGS
warehouse

Primed FJ Pine

porta

- 1 Knot-free pine — a premium grade of clear softwood.
- 2 Finger Jointed (FJ) — enhanced strength and stability through micro-sized finger joints and interior grade adhesive.
- 3 Pre-primed with two coats of water-based primer.

Timber Tips

- ✓ Do not leave unpainted product exposed to rain/water as this may cause the pre-coating to become soft or start to wear away.
- ✓ Paint mouldings before installing.

PROFILE	SPECIES	PORTA PRODUCT CODE	PRODUCT DETAILS/ DIMENSION	LENGTH
 Dressed All Round		DAR	30x11mm, 42x11mm, 67x11mm, 67x18mm, 18x18mm, 30x18mm, 42x18mm, 92x11mm, 92x18mm, 110x18mm, 138x18mm	2.7m
