

BURB MECHANICS.

PRESENTED BY NÜÜD STUDIO.

Welcome Burb Mechanic,

This manual is a guide for you to explore, adapt or alter; to create your own personal exclusive. The ordinary is camouflaged in the everyday-available around you, but holds the potential to be extraordinary. Burb Mechanics exhibition has investigated and constructed a small collection of what is possible from the proprietary material within our own context, but the field is sprawling. The works are made with love, care and attention and hope to cultivate social making, sharing and ownership.

Nüüd Studio is Kerli Valk and Bradley Mitchell. All round stickybeaks, activators and interrogators; searching for potential and joy from lasting and contributing architectural interventions to honest handheld objects.

Weekend Project

In the shed: Dowel kit, wood glue, saw, drill, sand paper

Materials:

- 4x 320x470x9mm PORTA FORESCOLOR MDF
- 4x 300x450x18mm PORTA FORESCOLOR MDF
