Hidden Deck Fasteners & Accessories

Hidden clips and timber plugs for Porta Cumaru Decking

Create a first class look with hidden fixing

Take your Porta Cumaru deck to the next level with DeckWise® hidden fasteners & accessories.

Designed to give a premium finish to your deck, the fastener options include a hidden clip or a timber plug system.

DeckWise® ExtremeKD™ Clip System

Makes installing a Porta Cumaru deck with hidden fixing fast, simple and strong.

Unlike other clips the DeckWise® ExtremeKD clip is constructed of a hardened plastic polymer resin shell that increases UV & chemical defence qualities. The patented stainless steel insert provides reinforcement and securely holds decking boards to joists, preventing screws from pulling through the clip as boards expand. The clip has a pull out resistance up to 500kg.

Up to 3-times more holding power than other hidden fixings.

1. Colour camouflaged shell made with polyethylene resin.
2. Hardened corrosion resistant black oxide stainless steel insert, design prevents over tightening.
3. "H" shaped spacer wedge leg.

Precise gap spacing - for natural expansion.

No visible screws - clean modern look.

Fast and simple to install.

Predrill a pilot hole.

Screw clip fastener on a 45 degree angle.

Install the next board over the exposed side of the clip & repeat.

Installing the last deck board. Fasten the outside edge with surface screws, cover with plugs.

Apply finish as per manufacturer instructions.

For more information please consult our Porta Decking Design and Install guide available online at porta.com.au under resources.

DeckWise® and ExtremeKD™ are registered trademarks. Porta is an authorised re-seller of DeckWise® deck building products. Products are warranted under DeckWise® Limited Liability Warranties enforceable only under the condition that, product was purchased from an "Authorized" dealer. Warranty applies only to the original purchaser for the original project and is non-transferable.

DeckWise® Cumaru Timber Plug System

When hidden deck fastening is not the preferred choice, the DeckWise® Cumaru hardwood plug kit is the perfect solution for concealing screws left in face-fixed decking.

Cover face fixing.

Made from real Cumaru.

Stable as is the same timber species as the deck board.

Create a smooth flat deck finish.

Install the first deck board & drill a 3.2 mm pilot hole.

Drill a 9.5 mm countersink hole approximately 9.5 mm deep.

Drive a deck screw through the countersunk hole.

Put a drop of glue in the countersunk hole.

Insert a wood plug into a countersunk hole.

Flush cut excess plug material. Sand for final finish.

For more information on how to specify please navigate to Products on our website porta.com.au

Product Range

ExtremeKD™ Clip Kit

DWHCBEXKDSBR525

Suitable for 20 m² deck

- ExtremeKD Clips 525 per pack
- Black Stainless Steel Trim-Head Screws
- 3.2 mm (1/8") High Speed Drill Bit
- T15 Star Drive Tip
- Deck Board Spacers

Cumaru Master Plug Kit

DWHMPKITCU1050

Suitable for 20 m² deck

- Cumaru Plugs 1050 pieces per pack
- Stainless Steel Trim-Head Screws
- DeckWise® Drill & Drive™ Kit
- 120ml wood glue

Accessories

Start Drive Tip (T15)

DWHTTIP2IN1

Quickly install deck screws faster than standard drilling and driving.

Porta Cumaru Grooved Decking

DEKG9021CUSL

Precision moulded grooves to fit the clip system. Available with a protective pre-oil treatment.

Cumaru Plugs

DWHPLUGSCU1750

Tapered shape to make installation easier.

Drill & Drive™ Kit

DWHDRILLDRIVE

Use to countersink face screws and drill plug holes with pilot holes – all in one step.

Stainless Steel Decking Screw

DWH825SS1050

Specifically designed to be used with the DeckWise®.
