Interior Timber Coating

know & love
timber

Pre-finished Coating Offer

Pre-finish timber linings, handrails or mouldings before the product arrives to site for faster installation and to achieve a high-quality finish with superior protection.

Image: Victoria Carpets Photo/Design: Studio D.I. Profile: Riverine with satin clear coating.

Standard clear satin coating

Available in a resilient and tough clear satin coating (30% gloss) to protect the timber and maintain its natural aesthetics.

High-quality finish

Factory applied for a clean and consistent high-quality finish.

Added protection

Protects the timber against marking and movement through reduced moisture loss.

Custom aesthetics

Made to order in custom colours, tints and painted finishes for enhanced looks. Contact us for more details.

Fire-rated coatings available

Solid timber is typically rated as a Group 3 product. Porta can supply timber with a custom coating to achieve a Group 1 fire-rating. Contact us for more information.
