

CONTOURS PRODUCT SPECIFICATIONS

GROOVE LINF7821

Inspired by the ancient Bungle Bungles in Purnululu, Western Australia, Porta Contours in Groove add natural warmth, movement and tactility to any room.

With its rolling corrugations, the striking Groove profile complements functional spaces adding a layer of richness and texture to the material palette. Working to both soften and enhance strong lines, Contours in Groove are perfect for use in a kitchen, bedroom, hallway, lounge, or dining room. It can also be used to clad cabinetry and doors as well as creating concealed doorways for a seamless finish.

With its consistent tongue and groove joint, Groove can be used in conjunction with any other Contours profile to create a unique design. Groove can also be used in curved applications, as well as in residential and commercial interiors.
