

# CONTOURS PRODUCT SPECIFICATIONS

## PLATEAU78 LINE7812

The Western Plateau (also known as the Australian Shield), covers two-thirds of Australia including large areas of Western Australia, South Australia and the Northern Territory. Inspired by its vastness, Porta Contours in Plateau 78 provide a wide flush profile for a subtle contemporary design.

With a slender linear silhouette, Contours in Plateau 78 add an abundance of natural warmth, character and tactility to a room. Plateau 78 can be used vertically and horizontally and is perfect for lining walls and ceilings in a kitchen, bedroom, hallway, lounge, or dining room. Plateau 78 can also be used to clad cabinetry as well as creating concealed doorways for a seamless finish.

Plateau 78 adds richness to the material palette and with its consistent tongue and groove joint, it can be used in conjunction with any other Contours profile to create a unique design. Plateau 78 is also suitable for curved applications.
