

# CONTOURS PRODUCT SPECIFICATIONS

## RIPPLE LING7821

Inspired by sand ripples found on Australia's magnificent beaches and dunes, Porta Contours in Ripple continuously curl and unfurl to provide a space with tactile organic movement.

The gentle curves of Contours in Ripple echo the wind's rippling effect and soften the strong lines of functional spaces. As a feature wall or statement piece, Ripple is perfect for use in a kitchen, bedroom, hallway, lounge, or dining room. It can also be used to clad doors and cabinetry as well as creating concealed doorways for an element of surprise.

With its consistent tongue and groove joint, Ripple can be used in conjunction with any other Contours profile to create a unique design. Ripple can also be used in curved applications, as well as in residential and commercial interiors.
