

# CONTOURS PRODUCT SPECIFICATIONS

## VALLEY LINK7821

Product in Primed FJ Pine.

Inspired by the valleys between the sandstone bluffs and cliffs in Rainbow Valley, Northern Territory, Porta Contours in Valley envelope a space with gentle movement, tactile interest and natural warmth.

Beautifully crafted with soft, scalloping curves, Contours in Valley unfurl into a space, softening the overall material palette.

As a fluid profile, Valley embraces changing light allowing shadows to dance over its surface. Valley is perfect for use as a feature in a kitchen, bedroom, hallway, lounge, or dining room. It can also be used to clad doors and cabinetry as well as creating concealed doorways for an element of surprise.

With its consistent tongue and groove joint, Valley can be used in conjunction with any other Contours profile to create a unique design. Valley is also suitable for curved applications.
