CIRQUE LINB7821

Inspired by the Blue Lake in the Snowy Mountains Region of New South Wales, glacial cirques are formed at the head of a glacier when it pushes down a mountain and carves a semi-circle basin - later filling with water and forming a cirque lake.

As a fluted textured canvas, Porta Contours in Cirque are perfect as a feature in a kitchen, bedroom, hallway, lounge, or dining room - adding warmth, movement and richness to the material palette. Softening and complementing strong lines, Cirque can also be used to clad cabinetry and doors as well as creating concealed doorways for a seamless finish.

With its consistent tongue and groove joint, Cirque can be used in conjunction with any other Contours profile to create a unique design. Cirque is also suitable for curves down to a 1000mm radius. For tighter curves, down to a 500mm radius, a matching corner bead is available.

CUSTOM PROFILE SPECIFICATIONS

Product Code	LINB7821	Length	0.9, 1.2, 1.8, 2.4 & 2.7m
Profile Type	Low Profile	Cover	78mm
Profile Size	91x21mm	Species	Tasmanian Oak, Clear Pine
Width	91mm	Suitable Finishes	Varnish, Stain or Paint
Depth	21mm	Suitable Uses	Interior, Straight & Curved
