

CONTOURS PRODUCT SPECIFICATIONS

PINNACLE LINH7821

Inspired by The Pinnacles within the Nambung National Park, Western Australia, Porta Contours in Pinnacle evoke a sense of warmth, drama and expectation to any interior space.

Crafted to maximise shadow play along the length of the profile, Contours in Pinnacle create textural variation and interest.

Complementing long lines and sleek material palettes, Pinnacle provides spatial definition and is ideal for use as a feature in a kitchen, bedroom, hallway, lounge, or dining room. It can also be used to clad doors and cabinetry as well as creating concealed doorways for an element of surprise.

With its consistent tongue and groove joint, Pinnacle can be used in conjunction with any other Contours profile to create a unique design. It can also be used in curved applications, as well as in residential and commercial interiors.
