

CONTOURS PRODUCT SPECIFICATIONS

PLATEAU39 LINE3912

Pilbara Craton is part of the greater Western Plateau (also known as the Australian Shield), Western Australia. Inspired by the overall flatness of the land, Porta Contours in Plateau 39 provide a slim lineal design for a smooth, refined look.

Slender in nature, Contours in Plateau 39 add subtle movement and richness to a material palette - providing warmth, character and tactility to a space.

Plateau 39 can be used vertically and horizontally and is perfect for lining walls and ceilings in a kitchen, bedroom, hallway, lounge, or dining room. Plateau 39 can also be used to clad cabinetry and doors as well as creating concealed doorways for a seamless finish.

With its consistent tongue and groove joint, Plateau 39 can be used in conjunction with any other Contours profile to create a unique design. Plateau 39 is also suitable for curved applications.
