

# ENDURE PRODUCT SPECIFICATIONS

## VALLEY ENT7821

Porta Endure timber cladding combines the performance of Class 1 Cumaru timber with designer profiles to create a timeless looking, long lasting exterior finish.

Inspired by the valleys between the sandstone bluffs and cliffs in Rainbow Valley, Northern Territory, Porta Endure in Valley envelops an exterior with gentle movement, tactile interest and natural warmth. Beautifully crafted with soft, scalloping curves, Endure Valley unfurls into a space, softening the overall material palette.

### PROFILE SPECIFICATIONS

Product Code	ENTK7821
Profile Type	Low Profile
Profile Size	91x21mm
Width	91mm
Depth	21mm
Length	3m (availability of length options may vary)
Cover	78mm
Species	Cumaru
Suitable Finishes	Oils, Stains
Suitable Uses	Exterior

### TECHNICAL SPECIFICATIONS

Density	1085kg/m <sup>3</sup> / <b>Hardness:</b> 14.8 Janka kN / <b>Durability:</b> Class 1
