Size 28x12mm
Length 2.7m

DUNE CBT2812

MESA CBW2812

PEAK CBU2812

Transform your wet areas - Portaline is your ideal choice for enhancing the aesthetics of bathrooms, laundries, and kitchens.

Designed exclusively for internal use, it's perfect for upgrading these spaces. Plus, Portaline comes primed with a waterbased primer, ready for your chosen finishing coat colour, making your job easier.

When installing, compliance is key:

- Seal all product sides and cut-outs properly with an appropriate sealer to prevent moisture infiltration.
- Avoid installation in areas with water splashes or high moisture levels, like shower recesses or spots where a vessel (e.g., bath, basin, or tapware) is within 75mm of a wall.
- Installation in wet areas must comply with specified requirements according to AS 3740:2021 and NCC Vol 1F2P2 or Vol 2 S26C5.

Porta is committed to sourcing timber from sustainable and environmentally responsible resources.

Timber is a natural material with colour variations and features within the same species. It is important these natural characteristics are considered when creating design applications. The images featured in this brochure are indicative only and may vary from the actual colour of the timber. We've taken every precaution to provide accurate information in this brochure, but please note that we may modify or discontinue products as part of our ongoing product development. For the most up-to-date information, including product availability, claims, and pricing, please confirm at the time of purchase.
